

QUESTION

Does anyone have an "adopt a hall" program where different organizations are responsible for keeping a certain portion of the building clean? How did you implement this program?

From: "William Donato" <WDonato@d200.mchenry.k12.il.us>

We are doing adopt-a-hall but for energy consumption. Students will be monitoring hallways after school is out and during weekends to see what hallways have lights on that don't have to. Bill

From: "David Sizemore" <DSizemore@carmelhs.org>

At Carmel , we do not have an adopt a hallway program. However, we do have a recycling club where the students in the club do go to each classroom on Wednesday afternoons after school and empty all of the individual classroom blue recycle bins into the recycle canisters. A company picks up the recycled paper once a week.

Haven't heard of "adopt -a- hall". Sounds interesting. Our halls are arranged by class. Each class decorates their hall for Homecoming. Each hall has a different theme.
